

It Comes

Jerry Cantrell

Ending, a place so cold and dry
Sending a look, avert your eyes

I'm slowly drifting free
From the ragged company
Not only scars I see
Notes in a symphony... undone

Remember, count the reasons why
Never redraw the path of time

I'm slowly drifting free
Let me go, it's all over
From the ragged company
We have tried, time to say goodbye
Not only scars I see
Notes in a symphony... it comes

Wonder will it ever feel alright
Slumber beneath a restless night

I'm slowly drifting free
Let me go, it's all over
From the ragged company
We have tried, time to say goodbye
Not only scars I see
Can't take another day
Ain't the same for you as me
Notes in a symphony... it comes
