

Let It Lie

Jerry Cantrell

Let it lie
Let it lie

I don't mind the small derision
After all it's just your way
Took the time to come and see ya
Testify to the hate
I see how it fills ya

Everybody has a spell they're under
Beneath a primal urge to fight
Oh, won't you let it lie?

Let it lie

I am just your reflection
You are mine all squirreled away
Like a bundle of tinder

Everybody has a spell they're under
Beneath a primal urge to fight
Can you see yourself in the other?
Release the need to be so right
Oh, won't you let it lie?

After all it's your way
Turning love away
After all it's your way
Turning love away
After all it's your way
Turning love away

Take the time, your decision
How you shine is night or day
Don't let it break you

Everybody has a spell they're under
Beneath a primal urge to fight
Can you see yourself in the other?
Release the need to be so right
Oh, can't you let it lie?

Let it lie
Let it lie
Let it lie
Let it lie
Let it lie
