

# Setting Sun

Jerry Cantrell

Cue the light, watch this show  
Till you find the one you know  
Aaaah, eyes wide, skin aflame  
All you were is wiped away  
All you love has died today

You stand by  
You stand by  
You stand by  
And let it happen

All you were is wiped away  
All you love has died today  
All you were is wiped away  
All you love has died today

Run  
You are a setting sun  
Night to night

Stand them up against the wall  
Through the smoke the bodies fall  
Aaaah, and the crowd seems appeased  
All you were is wiped away  
All you love has died today

You stand by  
You stand by  
You stand by  
And let it happen

All you were is wiped away  
All you love has died today  
All you were is wiped away  
All you love has died today

Run  
You are a setting sun  
Night to night

Run  
You are a setting sun  
Night to night

You stand by  
You stand by  
You stand by  
And let it happen

Watch it come down  
Oh, you're setting sun  
Watch it come down  
Oh, you're setting sun  
Watch you go down  
Oh, you're setting sun
