

## My Problems Got Problems

Jerry Garcia

Seems like whenever I think I'm ahead  
I'm further behind where I started instead  
But now I know that problems got to be solved  
But each one brings me down till it's resolved  
My problems got problems, I can't explain  
Pass me the wheat straw, I will try it again  
(Problems, problems)

You can see why it takes most of my time  
To sort through confusion and uncloud my mind  
My problems got problems, if you understand  
It's like being caught in a sea of quick sand  
My problems got problems, I can't explain  
Pass me the wheat straw, I will try it again  
(Problems, problems)

(Problems, problems)

You can see why it takes most of my time  
To sort through confusion and uncloud my mind  
My problems got problems, if you understand  
It's like being caught in a sea of quick sand  
My problems got problems, I can't explain  
Pass me the wheat straw, I will try it again  
(Problems, problems)
