

The System

Jerry Garcia

Who will you murder
For democracy
Who's next to be slain

People wait to be
Sucked up
By your genocide campaign

Murdered for
Technology
Natural resources too

While earth faces extinction
Guess what?
They say prayers on the moon

I'm talkin', talkin' about the system (system)
Said I'm talkin', talkin' about the system (system)
I said the funky, funky system (system)
I said the funky, funky system (system)

Who will you murder
For democracy
Who's next to be slain

People wait to be
Sucked up
By your genocide campaign

No sociology
Equality of life
We'll only save ourselves
By lessening human strife

Feel the system
Stalk the land
And with death goes
Hand in hand

I'm talkin', talkin' about the system (system)
Said I'm talkin', talkin' about the system (system)
I said the funky, funky system (system)
I said the funky, funky system (system)

Who will you murder
For democracy
Who's next to be slain

People wait to be
Sucked up
By your genocide campaign

No sociology
Equality of life
We'll only save ourselves
By lessening human strife

So the system
Stalks the land
And with death goes
Hand in hand

I'm talkin', talkin' about the system (system)
Said I'm talkin', talkin' about the system (system)
I said the funky, funky system (system)
I said the funky, funky system (system)

Said the system, yeah
The funky, funky system (system)
The funky, funky system (system)
The funky, funky system (system)
...
