

## Down In Belize

Jerry Jeff Walker

Somebody asked me if they thought I could be  
Happy living all my days down in Belize  
And I thought, "Why not?  
I always like it hot"

So I started listing reasons why I like it there  
Sunny days of fishing in the salty air  
And the stars at night  
There ain't no ambient light

The good life gives you what you need  
And I believe happiness counts a lot  
They say, "Successful men get what they want  
Happy men want just what they got"  
And the good life for me comes naturally down in belize

Yeah, the island where we live is small and intertwined  
They got their own pace, they call it island Time  
When they say right away, they just may not mean today  
They say, "What's your hurry, man? Don't worry  
Don't you know San Pedro days go slow?"  
The island life will get you  
Pretty soon it sets you down into a slower mode  
That's when all your tensions go

I say the mode of dress is flip-flops and an old T-shirt  
Cut-offs, straw hat, sunglasses won't hurt  
'Cause it's a sunny day  
I always like it that way  
People are all friendly, oh, they love themselves  
When they get into trouble, they help each other out  
It's the Christian way  
I always like it that way

Yeah, the good life gives you what you need  
And I believe happiness counts a lot  
Successful men get what they want  
Happy men want just what they got  
And the good life for me comes naturally down in Belize

Doo-doo, doo, doo-doo  
Doo-doo, doo, doo-doo  
Doo-doo, doo, doo-doo  
Doo-doo, doo-doo
