

# Lone Wolf

Jerry Jeff Walker

Frosty breath on the hillside  
See that sun goin' down  
Tracks in the snow to the city below  
Lone wolf now he's coming to town, whoa

Lone wolf, oh, he's lonesome  
And looking tonight  
Whoa, lone wolf, better lock up  
Your women and hide

Sneakin' down the back streets of town  
He lives on the lam  
Takes what he can, not giving a damn  
You know how he is, he just do what he can

Lone wolf, oh, lonesome  
And looking tonight  
Whoa, lone wolf, better lock up  
Your women and hide

Any fool can look in his eyes  
See that he's been around  
But any movement better not make a sound  
You know, it's cold just livin' on the ground, runnin' around

Like a lone wolf, lockin' up  
The women tonight  
Oh, lone wolf, lonesome  
And lookin' tonight
