

Saturday Night Special

Jerry Jeff Walker

Tonight I could wrestle the devil
I feel I just can't lose
Go on out and find me some fallen angel
To help me with these lowdown blues
She be knowin' bout the lowdown blues

I got me a Saturday night special
In case things should get too rough
I've been laid back too long
I believe I've had enough

Well I can't get the man to call a taxi
He could take me way downtown
Well I'm gonna fire up my Lincoln instead
Throw my money around, won't it look good downtown

I got me a Saturday night special
In case things should get too rough
I've been laid back too long
I believe I've had enough

Keep me away from the lawyer
Keep me away from the noose
Keep me away from the businessman
Give me the lowdown blues
Stepped on my Gucci shoes
