

## Good News Travels Fast

Jerry Lee Lewis

One, and two, and a-three, and a-four!

Shorty ran through the door of the local waterhole  
Yeah the Ruby's back in town, this I heard it on the radio  
Everyone a-disappeared and that's a fact  
When Ruby's in town, good news travels fast

'Cause she smokes filter cigarettes and she loves to rock 'n roll (rock n' roll)  
She likes the last row in the dark a-near the picture show  
She says the only thing that's better is my drop top Cadillac  
Ruby's good news and good news travels fast (Woo!)

Well, I finished my beer, stepped outside to take a look around  
They had a nine piece band and the mayor was rollin' around  
Well, they give me the key to the city and a front page flash  
Ruby's good news and a-good news travels fast

Oh now, builds and smokes filter cigarettes and she loves to rock 'n roll  
She likes the last row in the dark a-near the picture show  
(Y'know what that means)  
Well, the only thing that's better is my drop top Cadillac (look out!)  
Good news travels fast (uh-huh)

(Ruby!)
