

Jerry's Place

Jerry Lee Lewis

Well when you're feeling low
What you need is a real good lift
You ought to get yourself in gear
And I will take you on a swinging trip
Head to crazy music with a honky beat
There's a place in Memphis where you can find your family
It's great down at the Killer's place

There's a lot of women around the tables and around the bar
Son it ain't necessary
You don't even need to tell 'em who you are
Hello girly honey would you like to dance
You don't have to worry about a big romance
It's great down at Jerry's place

Killer's gonna happen when you give it all on the road
Drinking up tequila with a fire burning in your soul
There ain't nothing like it you just can't get enough
He'll be there a gettin' it when the sun comes up
It's great, so great down at the Killer's place

Killer's gonna happen when you get that old piano rollin'
Drinking tequila with a fire burning in your soul
There ain't nothing like it you just can't get enough
He'll be there a rockin' it when the sun comes up
It's great at Jerry Lee's place
