

Only Love Can Get You in My Door

Jerry Lee Lewis

Only love can get you in my door
My heart won't settle for less or ask for more
There's no love light shining in your eyes
Girl you can't like Jerry Lee's way to paradise

Only love can get you in my arms
That's the only place you're really safe and warm
Girl we can't go back to where we were before
Only love can get you in my door

Tried so many times the other way
Those who come to take but not to stay
Hey girl if you've really got something to give
Lay it on Jerry Lee Lewis heavily
And baby baby we can really start to live

Only love can get you in my arms
That's the only place you're really safe and warm
Girl we can't go back to where we were before
Only love can get you in my door

Only love can get you in my door
Honey you know that's what Jerry Lee's waiting for
Can't go back to where we were before
Only love can get you through my door

Only love can whisper in my ear
That is the only song I want to hear
Ain't going back to where we were before
I love you darling but only love can get you through my door

Tried so many times the other way
Those who come to take but not to stay
Hey girl if you've really got something to give
Lay it on Jerry Lee Lewis heavily
And baby baby we can really start to live

Only love can whisper in my ear
Honey that's the only song I want to hear
Ain't going back to where we were before
Only love can get you in my door

Tried so many times the other way
Those who come to take but not to stay
Hey girl if you've really got something to give
Lay it on Jerry Lee Lewis heavily
And baby baby we can really start to live
