

# We Live in Two Different Worlds

Jerry Lee Lewis

**C F**

We live in two different worlds dear

**C G7**

That's why we're so far apart

**C F**

You made your world out of vows that are broken

**C G7 C**

I built a world in my heart

**F**

Everyone here tried to warn me

**C G7**

You were just playing a game

**C F**

I told them all we were meant for each other

**C G7 C**

I thought our worlds were the same

**F**

If you stay over in your world

**C G7**

Oh how my poor heart will pine

**C F**

Darling someday when your memories wander

**C G7 C**

Won't you come over in mine

**F**

We live in two different worlds dear

**C G7**

My world is honest and true

**C F**

Sweetheart remember when your world gets lonesome

**C G7 C**

I'll still be waiting for you
