

Where Would I Be

Jerry Lee Lewis

I come home to your loving arms each evening
Tenderness is waitin' for me there
You touch me and I get the sweetest feelin'
It turns me on just knowin' that you care

Where would I be if it hadn't been for the love of you
Where would I stand if you hadn't stood for the things I do bab
y
What would I have if you hadn't had a heart so true
Where would I be if it hadn't been for the love of you

Darlin' you clear me of my troubles when you're with me
Woman you know just what to do to calm old Jerry down
And baby I'm in heaven when you kiss me
I feel like I belong when you're around

Where would I be if it hadn't been for the love of you
Where would I stand if you hadn't stood for the things I do bab
y
What would I have if you hadn't had a heart so true
Where would I be if it hadn't been for the love of you
Where would I be if it hadn't been for the love of you
