

# Hurry Home

**Jerry Reed**

You left and said the test of time would tell us how we felt  
Well weeks have gone my love is strong but my heart's about to  
melt

If you're not sure then please come home if only just for me  
And when I'm strong and feel secure again then you can leave

So hurry home my baby I need you by my side  
The lonesome's gettin' lonelier and growing deep inside  
A memory only keeps me warm for so long when you're gone  
So hurry home my baby hurry home  
Hurry home my baby hurry home

I know you've got to be away but why away so long  
The distance only changed the time and drags it slowly on  
Your voice inside a telephone is emptying up my soul  
And only one thing fills it that's to have you here to hold

So hurry home my baby I need you by my side...
