

I'll Be Around (In All The Old Places)

Jerry Reed

I'll be around in all the old places
And I'll make believe you're with me
If friends should ask me then I'll say you're just fine
They won't know that I've lost you and I'm losin' my mind

And I'll wear a smile just to hide all my hurtin'
But it's so hard to do with you gone
But you'll know where I'll be and if you ever need me
Just call me cause I'll be around

Somehow I lost you we just drifted apart
You're outside of my arms but you're inside of my heart

So honey I'll be around and you know where to find me
If things don't work out like you planned
So don't you be lonely and if love lets you down
Honey call me because I'll be around
