

We've Called It Everything Else

Jerry Reed

We called it heaven and we called it perfect
We called our sweet love a beautiful song
So we called the preacher and friend's for the weddin'
But I guess we just called it all wrong

Cause now we're callin' our lawyers and signin' up papers
And callin' the whole thing a mess
Yes we're callin' it off and why not I guess
Cause we called it everything else

We called it love when we started
We were so young and our hearts were on fire
We looked just right together
They called you and me the perfect pair

But soon the boat started rockin'
And the new all wore off
And all that sunshine turned to rain
We started off callin' each other darlin'
But now we're callin' each other names

We called it heaven and we called it perfect...
Cause now we're callin' our lawyers and signin' up papers...

We called it heaven and we called it perfect...
Cause now we're callin' our lawyers and signin' up papers...
