

All Night

Jes

Its funny how I'll sit and wonder
How many times we've laid here
And it's funny that through all these years
You look more beautiful than you could ever be
And its crazy how your voice stops me
From running away and staying all by myself
Oh it's taken me so long trying to just keep on
When it moves so fast and nothing lasts

All Night
I want to love you
And All Night
I'm thinking of you

Its funny now
But when I feel this pain I know it's love
And its makes my soul flow free
Oh it never fades
It only keeps on trying
Echoes of the past
We grew up so fast

And All Night
I want to love you
And All Night
I'm thinking of you
All night I'll never leave you
And All Night
I want to feel you

All night
Well I'll never leave you
All night
I m thinking of you ...
I'll never leave you ...
