

# Anything Can Happen

Jes

You're electric  
You brought me back to life  
You will haunt me  
When the summers gone

Oh the rebellion and the truth  
Spilled emotions  
Of my youth  
I learned the hard way  
When you start with a blank page

All these lights  
Trapped forever in a silent heart  
Burn so bright  
A tornado in a little jar

Maybe you got me  
Where you want  
Wind me up and let me fly  
Maybe you got you want me  
Where you want me  
Anything can happen  
Anything can happen  
When we  
Drive  
Drive  
Drive  
Oh Drive...

Anything can happen  
When we  
Drive  
Drive  
Drive  
Oh Drive...
