

Around You

Jes

Help me, the rejection
Take it away
I found my religion, waiting in your pickup
All the time crazy wired

Everybody wants you,
Everybody's had you
Makes no difference who you've got
Around You
Everybody needs to
Have a little bit of you
Before they fade away
Around You

Were you too messed up to notice ?
I've been awake
Made my decision
Hiding in the doorway
Praying for some midnight pride

Everybody wants you,
Everybody's had you
Makes no difference, who you've got
Around You
Everybody needs to, have a little piece of you
Before they fade away
Around You

(Bridge from Chill-out)
So Gather downtown cause I might be singing today
a round about song of love to be
And how we carry on

Everybody wants you
Everybody's had you
Makes no difference, who you've got
Around You
Everybody needs to
Have a little piece of you
Before they fade away
Around You
