

## Flying Blind

Jes

Sunrise colours bleed  
I'm sleeping in your car  
The time asymmetry  
We're seeing in the stars

This goes on forever

It's never gonna be the same to me  
You know  
No matter how I try  
You just don't leave me

So let me be the one  
We've only just began  
And we're flying blind  
And we're flying blind

It's never gonna be the same to me  
You know  
No matter how I try  
You just don't leave me

Cuz I'll be here tomorrow  
When your dreams are down  
And this is all that matters  
Since you've been around

It's never gonna be the same to me  
You know  
No matter how I try  
You just don't leave me

So let me be the one  
We've only just began  
And we're flying blind  
And we're flying blind
