

# The Light In Things

Jes

I see the light

At times I want to know you  
Just to break myself and show you  
How we turn every day and just walk through  
So believe in my heart I adore you  
If I blink I know we can hope  
Wont ever leave us now  
Wont ever leave us now

At times I want to know you  
Just to break myself and show you  
How we turn every day and just walk through  
So believe in my heart I adore you  
If I blink I know we can hope  
It wont ever leave us now  
It wont ever leave us now

And I see the light in things  
And I watch the world go by  
I look inside and feel you in me  
And I see the light in things  
And I watch the world go by  
Nothing can shake the hope within me

If I blink I know we can hope  
It wont ever leave us now  
It wont ever leave us now

If I blink I know we can hope  
It wont ever leave us now  
It wont ever leave us now

I see the light in things  
I watch the world go by  
I look inside and feel you in me  
I see the light in things  
And I watch the world go by  
I'll never change the hope within me

I see the light in things  
And I watch the world go by  
I look inside and feel you in me  
I see the light in things  
And I watch the world go by  
I'll never change the hope within me

I see the light in things  
And I watch the world go by  
I'll never change the hope within me

I see the light in things
