

Memories Are Now

Jesca Hoop

Memories are now
Memories are now

I was not there
I won't be there
I'm only here
Memories are now
I can carry this weight
I can stand up tall
Look you in the eye

You haven't broken me yet
You don't scare me to death
You don't scare me at all
Though you try

I've lived enough life
I've earned my stripes
with my knife in the ground
This is mine
Clear the way, I'm comin through
No matter what you say,
I've got work to be doin'
If you're not here to help,
go find some other life to ruin
Let me show you the door

The only fear is a thing called fear
I'm only here
I have only now to bear the load
To feel my weight trust my mistakes

I've seen you before
I know your face
I fell for that line
Shame on you

You've got this idea
I can be fooled
Again with the line
Shame on me

Clear the way, I'm comin through
No matter what you say,
I've got work to be doin'
If you're not here to help,
Go find some other life to ruin
You have outstayed your welcome
Best get up, get on, get movin'
Get movin' get movin' get movin'
Let me show you the door

Memories are now
Memories are now

Memories are now
In every doubt theres a trigger proven strength

Clear the way
I'm comin' through
No matter what you say
I've got work to be doin'
If you're not here to help
Go find some other life to ruin
Take a bite of me and
you've got more than you're happy chewin'
You have overstayed your welcome
Best get up, get on, get movin'
Get movin' get movin' get movin'
Let me show you the door

Memories are now
