

# Hostage

Jess Benko

You hurt me like you need me  
If I mattered why'd you leave me  
You walk like you're on your own  
But I'll burn you with your throne

Hold onto you, never strong enough for you to stay  
Tighten my grip on your heart and your throat you can breathe b  
ut just don't run away

Hold onto you  
I won't give you away  
If I'm holding you hostage would you want to stay  
Holding you hostage would you want to...

Lighter when I'm not there  
And you know it's not fair  
Cause you talk like you're all alone  
When I built you and your throne

Hold onto you, never strong enough for you to stay  
Tighten my grip on your heart and your throat you can breathe i  
f you don't run away

Hold onto you  
I won't give you away  
If I'm holding you hostage would you wanna stay  
Holding you hostage would you wanna...

(Hold) onto you  
(I) won't give you away  
If I'm holding you (hostage) would you wanna stay  
Holding you hostage would you wanna...
