Don't stop me in my tracks, I'm onto something Going full steam ahead, the meter's running Concentrating my moves, I'm on a mission To go, go, go, go, go

I see demons all around me
They not gonna snap, not gonna snap on me
Don't stop me in my tracks, I'm onto something
To go, go, go, go, go

I got all I need Could be, do I gotta bleed? No bad blood, no bad blood Just L-I-V-E your L-I-F-E

Careless eyes, I go, I don't care who is watching Always speaking my mind, but I'm not preaching In control, I'm not leaving pro position No, no, no, no, no

I see demons all around me
They not gonna snap, not gonna snap on me
Don't stop me in my tracks, I'm onto something
To go, go, go, go

I got all I need Could be, do I gotta bleed? No bad blood, no bad blood Just L-I-V-E your L-I-F-E

You cut me deep and yes I bleed
I'm not afraid, oh, I will heal
See there are things that you can change
And who you're standing with can be replaced
You cut me deep and yes I bleed
I'm not afraid, oh, I will heal
See there are things that you can change
And who you're standing with can be replaced

I got all I need Could be, do I gotta bleed? No bad blood, no bad blood Just L-I-V-E your L-I-F-E
