

# About a Billion

Jess Godwin

Roof over my head  
Got food  
Got a warm bed  
Got sun in the morning  
It's pouring into everything  
Got mountains and tall trees  
Rivers and lakes and big seas  
Colors that change me  
The red blue yellow purple and green

Each day I'm alive I say that I'm up to the test  
Each hour that I breathe I vow to be a beautiful mess  
Each day that I live I try to give it up to the sky

Can't wait  
I know without a doubt  
Today I got about a

Billion days a billion day about a  
Billion words a billion words about a  
Billion ways a billion ways  
About a  
About a  
I got a billion

Prairies and dirt roads  
The promise of brand new hope  
Got cabins in springtime  
Got apple pie and strawberry tea  
And dresses with pockets got freckles and friendship lockets  
Sunday night dancing and falling into welcoming sheets

Each day I'm alive I say that I'm up to the test  
Each hour that I breathe I'm proud to be a beautiful mess  
Each day that I live I'm gonna give it up to the sky

Can't wait  
I know without a doubt  
Today I got about a

Billion days a billion days about a  
Billion words a billion words about a  
I got a billion  
Billion ways a billion ways about a  
Billion words of gratitude about a  
I got a billion

Prairies and dirt roads  
The promise of brand new hope  
Got cabins in springtime  
Got apple pie and strawberry tea  
And dresses with pockets  
Got freckles and friendship lockets  
Sunday night dancing and falling into  
Welcoming sheets

Thank you

Thank you  
I gotta thank you
