

Get Over It

Jess Godwin

I sent 40 sorry emails
13 dozen flowers
Emoji heart text on every hour
And you say on Facebook you love me
But you never answer my calls (I'm sorry)

Teddy bears and chocolate
Love by carrier pigeon
I wrote a song but you never listen
Don't I get some credit admitting
that I dropped a couple of balls (We've already)

Done this dance
For far too long
You got the upper hand
What would happen if you just got over it
Get over it
Get, get, get over it
Over it
Get, get, get over it
Over it
Get, get, get over it
Over it
I'm over it

Christ forgave the Romans
Khan forgave his brother
Lord knows we try to forgive our mothers
Put it in perspective
I don't think that this is that big of a deal (I'm sorry)

Nelson Mandela did it
Belle forgave the villain
Pope John Paul forgave men who tried to kill him
Never gonna get it but somehow
I still care about how you feel (We've already)

Done this dance
For far too long
You got the upper hand
What would happen if you just got over it
Get over it
Get, get, get over it
Over it
Get, get, get over it
Over it
Get, get, get over it
Over it
I'm over it

And you never care
Why should I care
If you're never there
Why'm I playing solitaire
I'm playing solitaire

Get over it

Get get get over it
Over it
Get get get over it
Over it
Get get get over it
No I swear I'm over it
Get over it
Get get get over it
Over it
Get get get over it
Over it
Get get get over it
Over it
