

Elevator

Jess Moskaluke

Push the button, close the door
Flying by the second floor
Way you got me feeling wasn't something I was looking for
Stomach dropping, close my eyes
Fighting off the butterflies
As the room begins to rise, shooting to the sky
And I'm holding on

Like I'm on an elevator
To a new kinda high
It's a straight up buzz on a feel good ride
And I don't wanna go down
And I don't wanna go down
I'm on an elevator

Halfway to heaven, skip the stairs
Moving fast but I ain't scared
Everytime you kiss me gets me flying through the air
And I'm holding on

Like I'm on an elevator
To a new kinda high
It's a straight up buzz on a feel good ride
And I don't wanna go down
And I don't wanna go down
I'm on an elevator
I'm on an elevator

Higher than the Eiffel Tower
Like a hundred miles an hour
This feeling now that I've found you
I don't wanna lose
So I'm holding on

Like I'm on an elevator
To a new kinda high
It's a straight up buzz on a feel good ride
An elevator
To a new kinda high
It's a straight up buzz on a feel good ride
And I don't wanna go down
And I don't wanna go down
I'm on an elevator
Yeah I'm on an elevator
And I don't wanna go down
