

# Every once in a while

Jess Moskaluke

Verse:

I know how to say my prayers  
I know when to go to bed  
I know how to be a good girl  
I remember everything mama said

I see that you keep looking my way  
You see that I'm looking at you  
We both know what's about to happen  
What's a girl to do?

Chorus:

Don't wanna think about tomorrow  
Throw caution to the wind  
Forget about it all  
I wanna feel the rush, I wanna feel alive  
A little dangerous whether it's wrong or right  
Feels so good to break the rules  
Every once in awhile

Every once in awhile

Verse:

I know if mama could see me  
I'm sure she'd be worried sick  
Cause it's about four in the morning  
I ain't ready to go home yet

I might regret this later  
He may even break my heart  
Right now I really don't care  
Wrapped up in his arms

Chorus:

Don't wanna think about tomorrow  
Throw caution to the wind  
Forget about it all  
I wanna feel the rush, I wanna feel alive  
A little dangerous whether it's wrong or right  
Feels so good to break the rules  
Every once in awhile

Every once in awhile

Bridge:

I hear that little voice inside me  
It says I'm way outta line  
Turn it off for the night  
Don't wanna think about it  
Hear about it  
Gotta shut it out

Chorus:

Don't wanna think about tomorrow  
Throw caution to the wind  
Forget about it all  
I wanna feel the rush, I wanna feel alive

A little dangerous whether it's wrong or right  
Feels so good to break the rules  
Every once in awhile

Every once in awhile
