

# Come Find Me

JessB

Come find me  
I'm just finding myself don't mind me  
Make way  
Never need to pick A side they right B Side me

I don't need a chauffeur I'm so driven  
I want all of it  
Open doors and see my people come in with me  
All of them

I'm loud, I won't leave  
Not now, till I'm free  
Proud, I'm only  
Closer now, slowly

What you think could never know me  
What you think could never own me  
What you do could never show me  
What I hold will always hold me

No bad mind could ever touch me  
Yeah we got spirit never taking that from me  
We be on way in the back or the front seat  
Whole car packed wit the homies we on street

It's a long way yeah yeah, I know  
Gotta grow and den make it feel like home  
Yeah they never wana see us shine tho  
So night time fuck that we make the sky glow

Come find me  
I'm just finding myself don't mind me  
Make way  
Never need to pick A side they right B Side me

I don't need a chauffeur I'm so driven  
I want all of it  
Open doors and see my people come in with me  
All of them

I'm loud, I won't leave  
Not now, till I'm free
