

# Commando

JessB

Now who's that peeking in my window  
Now they know I'm doing numbers like a bingo  
I'll be fly long as the wind blow  
Now I got my chips up like Pringles, yeah

I know you wanna speak my lingo shawty  
Get down for me like a limbo shawty  
We make a band, brass section for me  
I'm feeling like a damn sex symbol

Everybody wanna be around when the things going good  
When the things go bad - its ghost  
Everybody wanna a little piece of the pie  
I want peace in my mind, with a dime by the coast  
Every thing I say, every line I quote  
That's me, that's real, I grip & choke  
Y'all tell lies, you speak, you know  
You do too much, you do the most

Commando  
They ain't want smoke let that man know  
My team move like commandos  
Touch down when I land hoe  
We in command tho  
And she pull up to my show commando  
My team move like commandos  
Touch down when I land hoe

She said she never done this before  
Need foreplay 'for we start, need me more  
Throw the money up got enough let it free fall  
Black girl with the blonde wig like igor

Told her we could never stop  
And if you got a lil some, go and make it drop  
And if you feeling something go head and shoot a shot  
I ain't never rushing baby you can let it rock let it rock

Three, two, one  
Lately I been feeling like a nuisance  
Yeah, I been really bout it since a new born  
So if you really want it come do some (do some)
