

Day Ones

JessB

This for my day ones chilling, and grinning, and whinging with me
Way Back since the beginning
This for the women, not quitting, and killing it, dreaming about the time when we would be winning
Hoping out the linen, we driven, hip swinging, making moves so we never stay sitting
These Queen bees stinging, I been thinking, I'm keep bringing till the phone keep ringing
- And that's true tho

Going into combat like its judo
JessB with the beat and the bars in the studio
Miss Scarlett with the cool flow, play the game, you know
You know I been killen em, right? That's cluedo

Since way back then - they were there way back
Still on the grind we ain't tryna lay back
Raybans on but I ain't tryna catch shade
I been blockin out haters with my future bridesmaids

Catch em at my shows, showing off in the front row
They be going off, going off in the front row
They pretty girls, but you know they stay blunt tho
If you wana get to me, gotta try get past my front row

Yeah yeah... you know ima roll witcha
Dat my day one right there, dat my sista
Dat the real deal, that's forever, take a picture
And you know we been broke, but together, we richer so

(That my - that my - that my day one

This is for my day ones that bus stopped and op shopped, and climbed up high to watch the stars from the roof tops
This is for the nights that we went non stop, back to back singing
Li-li-li lick it like a lollipop
This for the times we skinny dipped at midnight
And for that one time yeah when I saved you from a fist fight

We took off together, been together now we in flight
We too crazy but that's how I like it, just right

So if I'm with da girls don't try politicking with us
If you ain't woke then you won't be kicking with us
Sticking with my posse, yeah dem gals bossy
