

Drop Nuts

JessB

Never back down, never background
Life a movie, then I act out
I'm a stand out, yeah, we take a stand now
This is real life, baby, no caption

Melanin in ya space, that's a black out
JessB pack a punch, now the place packed out
Journey to the top already been mapped out
Beat make you drop, throw ya damn back out

You getting chewed up, spat back out
Stay up at the top like we damn camped out
Chuck big egos, another man down
We bring the party, took the damn trash out

I drive the ting, baby, cock pit
Bad energy bitch, stop it
See bad energy, then I chop it
You drop nuts, I drop hits

Ooh, come race me
Cuz she got the keys to Mercedes
Foot down, gas pedal, lock down
Yea, we run the city no debating

Ooh, come race me
Cuz she got the keys to Mercedes
Foot down, gas pedal, lock down
Yea, we run the city money making

So what other brother top me? No sucka
Wonder woman muscle, voice smooth like butter
Pop on the scene stunting all of a sudden
Double down on the grind, better clear out the clutter

Mean mugger, grass cutter
Got all the homies with me like the last supper
Take no hand outs, but I got the upper
Old ways must die like John Tucker

Yeah yeah yeah yeah yeah
Pull up to the function got braids in my hair
When I pop in, it's a warning, I'm here
They talking, I make moves, don't care

They don't wanna see you win stay bitter alright
I made it out my country no quitter alright
JessB the B for Big dipper, alright
If it ain't about love or a figure goodnight

Ooh, come race me
Cuz she got the keys to Mercedes
Foot down, gas pedal, lock down
Yea, we run the city no debating

Ooh, come race me
Cuz she got the keys to Mercedes

Foot down, gas pedal, lock down
Yea, we run the city money making

B-Bad energy bitch, stop it
