

# Pon It

JessB

Yeah, uh uh  
JessB (wanna ride pon it)

You wanna ride pon it, ride pon it  
Wanna, come then go just like the tide pon it  
You wanna, hit me on my phone then come and slide pon it  
You wanna, take me to heaven like I died pon it

You wanna ride pon it, ride pon it  
Wanna, come then go just like the tide pon it  
You wanna, hit me on my phone then come and slide pon it  
You wanna, take me to heaven like I died pon it

I guess the feels flowing, open for the right moment  
Swerving left, right, driving like the whip stolen  
I'm a poet, got you sipping on my love potion  
Follow my lead baby, like its hypnosis

What's ya motive, what's ya name, what's ya sign?  
Time is of the essence, tick-tock the design  
Hands tryna be on your rotation every night  
This that midnight hour, we gon' shine

Bring em to the front girls wanna have fun  
Every man try, go one by one  
Wave em bye-bye, no bread, not a crumb  
Gonna make a bank run, wanna have fun

What you bringing to the table baby  
What you offer?  
What moves are you making  
Yeah we tryna prosper  
I'm into big brains, big game, big talker  
If it ain't A1 don't bother

You wanna ride pon it, ride pon it  
Wanna, come then go just like the tide pon it  
You wanna, hit me on my phone then come and slide pon it  
You wanna, take me to heaven like I died pon it

You wanna ride pon it, ride pon it  
Wanna, come then go just like the tide pon it  
You wanna, hit me on my phone then come and slide pon it  
You wanna, take me to heaven like I died pon it

If we in a coalition, best be politicking  
Put your hands up to the ceiling if you feeling the feeling  
With all this wheeling and dealing  
And all the height to be reaching  
There's not another like me  
And that's one in a billion

I see you baby, yeah, freak-a-leak  
I do it real good, real easily  
Practise makes a person that the people seek  
And how you treating you, is how you treating me

And if it ain't what I want, imma jump back from it  
I'm too iron, too iconic  
I don't judge, I just am honest  
I don't want debt, I want love and profit

If I get down, imma get down real  
Buss down on ya, ima close that deal  
Only speak big facts, but my game unreal  
Half queen, half-monster, word to Shaquille (wassup)

You wanna ride pon it, ride pon it  
Wanna, come then go just like the tide pon it  
You wanna, hit me on my phone then come and slide pon it  
You wanna, take me to heaven like I died pon it

You wanna ride pon it, ride pon it  
Wanna, come then go just like the tide pon it  
You wanna, hit me on my phone then come and slide pon it  
You wanna, take me to heaven like I died pon it

You wanna ride pon it, ride pon it  
You wanna ride pon it, ride pon it  
You wanna ride pon it, ride pon it
