

So Low

JessB

I loved her and she let me go
Tryna find my way back home
Lost my way but now I know
I gotta find a love of my own

Like some art, baby, ooh I'm feeling drawn to ya
I can't explain it, tight grip, hang on to ya
I won't skip 'cause I'm sure
Take the trip, I'm all yours
I'm so down to ride, all aboard

I fell like this, I feel this bliss
I don't think I ever want to end this kiss
And I don't ever wanna call quits
And if it came to the bullet, you already know I'd take this hit

But deep down I know that I'm more in that you're in
And my heart is not stored in yours
I'm mourning, I go to war inside
This love story ain't shared on the other side

No insight, commit heart suicide
Now I'm suffocating, now it's a landslide
Tell me, will I ever feel again this fire?
Will I ever have a love reply?

I think I need to go away for a minute
No sleep, gotta pray for a minute
I've been feeling so low, so low, so low
And this feeling so deep when I'm in it

Things seem a little dull now
I lost the spark in my life, I'm tryna run now
And I'm feeling so low, so low, so low
Feelings getting dark, yeah, when the sun down

I loved her and she let me go
Tryna find my way back home
Lost my way but now I know
I gotta find a love of my own

Gotta find the love
Gotta find the love
I gotta find a love of my own
Gotta find the love
Gotta find the love
I gotta find a love of my own

My whole world spinning, it's slippin' away
I'm swinging but I'm missing
It's a dream, I was living astray
I'm slipping and my stomach twisted insane
I'm feeling stupid and timid for clinging for so long

Swimming upstream for so long
I did my best, turned around
Let go, looked back and you're gone

Drift away all alone, I wish I felt strong
I just hope that I can make it home

You were my hero, I was proud to be around ya
Yeah, I felt so lucky that I found ya
Too good to be true, now I'm falling from the clouds
Falling from the stars, feeling lonely in the crowds

I don't want it to be true
You went and found someone, but my one has been you
The one running through my mind, that was always you
That was always you
It's you

I think I need to go away for a minute
No sleep, gotta pray for a minute
I've been feeling so low, so low, so low
And this feeling so deep when I'm in it

Things seem a little dull now
I lost the spark in my life, I'm tryna run now
And I'm feeling so low, so low, so low
Feelings getting dark, yeah, when the sun down

I loved her and she let me go
Tryna find my way back home
Lost my way but now I know
I gotta find a love of my own

Gotta find the love
Gotta find the love
I gotta find a love of my own
Gotta find the love
Gotta find the love
I gotta find a love of my own
Own, own
A love of my own
Own, own
