

Soul Free

JessB

Uh uh, uh uh
I'm just tryna set my soul free
Yea

I been feeling locked up I been tryna set my soul free
Strip it all back this the kinda shit you don't see
Yung sis yeah but I'm looking for the trophy
I been making moves yeah I been grinding on the low key

Outlook on life, getting better and better
Finding my lane my g it's getting fresher and fresher
Find yourself my g then u can weather the weather
Love yourself, my g, turn the pressure to pleasure

But I hit this shit yeah look at me go
They don't do it like me yeah look at me flow
I came a long way yeah just look at me grow
I got the juice yeah yeah, and you already know

Reflecting on some shit tryna set my soul free
Won't be locked down by constraints that wana hold me
Be yourself yeah yeah, that's what my mama told me
So I'm just she and I'm rolling with my homies

I'm just tryna set my soul free
I'm just tryna set my soul free
Beak these chains, I'm just tryna set my soul free
Let me be me, I'm just tryna

I'm just tryna set my soul free
I'm just tryna set my soul free
I'm just tryna set my soul free
Let me be me, I'm just tryna

So now she running, running and you bet she that she gon catch ya
You can see it on her face and you can see it in her stature
Stay climbing past these fakes, you could call that snakes and ladders
And she might just take your crown, bout to roll right up and snatch it

It's a new chapter, yeah the game in need of new rappers
Creepin to the top and if I was you, I would back her
Sleepin on her, she taking no breaks, that's no fractures
Giving no fucks, honey badger

I wana let all of my shit go, let it go
Roll with me, rolling we can let it go
Middle finger up, cause we on a roll
Say what you want but we beautiful... so

I'm just tryna set my soul free
I'm just tryna set my soul free
Beak these chains, I'm just tryna set my soul free
Let me be me, I'm just tryna

I'm just tryna set my soul free
I'm just tryna set my soul free
I'm just tryna set my soul free

Let me be me, I'm just tryna

I wana let all of my shit go, let it go
Roll with me, rolling we can let it go
Middle finger up, cause we on a roll
Say what you want but we beautiful

I wana let all of my shit go, let it go
Roll with me, rolling we can let it go
Middle finger up, cause we on a roll
Say what you want but we beautiful... so
