Do it, do it, do it, yeah, I'm laying the blue print  
You can see the whole thing yeah including the bloopers  
I ain't gotta hide shit cuz I really be moving  
Muh fuckers in my ear now, bitch you a q-tip

We be getting down and dirty far too filthy  
Ain't even see us coming manoeuvre too silky  
Another misfit, let the bullshit miss me  
Anyone wan try stop us then kiss these

Get it yeah, we dat filth  
Get it yeah, we dat filth  
Get it yeah, we dat filth  
Get it yeah, we dat filth

When I was young only thing I wanted really  
Was to not stand out when the place is crowded  
Tall bitch, big hair, bet my voice the loudest  
Feeling strung out baby me was disempowered

Now I done grown up, now I done glowed up  
All dem things I ain't like I be ones I love  
Now I bet you gon' see me when I walk on up  
I bet you gon' hear me, speak with all my lungs

So no, I won't shut up I won't unplug  
But I will let you watch as I do come up  
You can see me in the place with crew run up  
You can watch from the bench, see a bad bitch dunk

I know they say be careful what you wish for  
But I think we that really need to wish more  
Pitch ideas, they watch with a pitch fork  
The bigger the bigot the bigger the fall

Get it yeah, we dat filth  
Get it yeah, we dat filth  
Get it yeah, we dat filth  
Get it yeah, we dat filth

Get it yeah, we dat filth  
Get it yeah, we dat filth  
Get it yeah, we dat filth  
Get it yeah, we dat filth
