JessB

Gino You give me something I can work with
Girl I'm tryna go deeper than the surface, now
Both hands round your waist
Only time I play around is for a plate
Other than that it's no games
Take me for waste man, no way
I, come correct, nuff respect
To all the bad women getting shit done in the area
W-work with me now
My chick bad, I ain't worry bout none of ya
I'm just saying there's nothing else you could offer
Murder she wrote, and she's the best-selling author

Call it fate, call it whatever you want
I think you might be worth the wait
I don't wanna jump the gun
But If I tell you that I'm down then I'm down for life
And all the he said, she said, you know whos side
I'm on, been on, you know I gotchu, down to ride
Lean on, dream on, new age Bonnie and Clyde
You stay a favourite of mine, so can you stay my side
Pull up on ya on site, ding ding on my dial
I used to miss the sun but it ain't bleak anymore
You unique, I'm in awe, play for keeps, what's the score
My loyalty is sure what you needing, its yours
And everything I went through I can see what it was for

I feel that shit when nobody talking
What I want know where I'm walking
Running shit, I do what I wanna
I ain't worried about none of ya

You give me something I can work with
Girl I'm tryna go deeper than the surface, now
Both hands round your waist
Only time I play around is for a plate
Other than that it's no games
Take me for waste man, no way
