

tornado

Jesse Jo Stark

Met you by the beach
Saw you and couldn't breathe
Holy hell took over me
Should have just let you be
Next day we were holding hands
Made me your only friend
One week in the flesh
Got me in a wedding dress

I will go where the wind blows
Tornado, could be fatal
Don't get too close to me, baby
Moving fast
Anything in my path ain't never coming back

Wild and high from the desert heat
Melting in the drivers seat
Tumbleweed on the open road
I can feel that we're getting close
Pulled up to a drive through
Midnight, we said I do
Elvis, me, and you
Tied the knot, felt like a noose

I will go where the wind blows
Tornado, could be fatal
Don't get too close to me, baby
Moving fast
Anything in my path ain't never coming back

Woke up, I'm a mess
I'm living in regret
Sunrise headed west
Stopped off Route 66
Quicksand around your feet
Reached out your hand for me
Swimming in my diamond ring
I had to let you sink

I will go where the wind blows
Fallen angel, crooked halo
Don't get too close to me, baby
Moving fast
Anything in my path ain't never coming back
