

Run

Jesse & Joy

You look at me with empty eyes
You hold but I cannot feel your warmth
I tell you what I'm thinking
And you pretend that there is nothing going on
But something must be wrong

Oh, is this the best script that you have written?
I'm sure I've read it before

So keep on running, running, running, baby run
'Cause when I turn around you're already gone
Take with you everything you want but please just leave me now
You'll never get the chance to see me cry

So keep on running like you always do and don't look back
You've done it before, you'll do it again, my baby run

I've been here in the same scene
It hurts me but I have to let you go
And let you know
I gave as much as I could
Oh my heart was trying to survive
And stay alive

Oh, is this the best script that you have written?
No, it doesn't fit you anymore

So keep on running, running, running, baby run
'Cause when I turn around you're already gone
Take with you everything you want but please just leave me now
You'll never get the chance to see me cry

So keep on running like you always do and don't look back
You've done it before, you'll do it again, my baby run

You, the same old tricks, the same old story
I, I've learned them all

So keep on running, running, running, baby run
'Cause when I turn around you're already gone
Take with you everything you want but please just leave me now
You'll never get the chance to see me cry
We've tried so many times to say the word "goodbye"
So this time I'm not even gonna try

So keep on running like you always do and don't look back
You've done it before, you'll do it again, my baby run
You've done it before, you'll do it again, my baby run
You've done it before, so go right ahead, my baby run
