

Midnight Crazy

Jesse Labelle

What yo usay we get into something
I'll pick you up and we'll get the wheels humming

Out of town, drive around till we're buzzing
On our sweet loving
Chase a little while that you didn't see coming, yeah

But tonight I wanna go too far
Start sipping and kissing and dripping on your eyes
Fall fast just like those stars
Lighting it up, I wanna go back there again
Dancing in the full moon baby, baby
Get a little midnight crazy, crazy

We'll find a spot and turn off the motor
Pull my t-shirt over my shoulder
Steam it up let the rush take over
Until we can't get closer
Get a little lost in the middle of nowhere
Come on

But tonight I wanna go too far
Start sipping and kissing and dripping on your eyes
Fall fast just like those stars
Lighting it up, I wanna go back there again
Dancing in the full moon baby, baby
Get a little midnight crazy, crazy
Midnight crazy

The way your body moves inspires
Lean on in and set me on fire

But tonight I wanna go too far
Start sipping and kissing and dripping on your eyes
Fall fast just like those stars
Lighting it up, I wanna go back there again
Dancing in the full moon baby, baby
Get a little midnight crazy, crazy
Get a little midnight crazy
A little midnight crazy
