

# My Last Broken Heart

Jesse Labelle

I thought the first time was the worst time  
When love walked out of my life  
It took tears and beers and a couple of years  
To give it one more try  
But girl that wasn't nothing  
Like the way I'm hurting now  
You made a mess of me  
And what's left of me is in pieces on the ground

My last broken heart  
Wasn't bad as I thought  
It might've been cracked but when I look back  
Now it don't seem so hard  
Cause this one is never gonna mend  
Girl, I know I'll never love again  
Won't be another one for me  
I know that this is gonna be  
My last broken heart

Ain't no healing for this feeling  
Ain't no end of this in sight  
Ain't no dark before the dawn  
If there ain't no morning light  
And there ain't no getting over  
Something you can't leave behind  
They say we all got a cross to bear  
And girl I guess you're mine

My last broken heart  
Wasn't bad as I thought  
It might've been cracked but when I look back  
Now it don't seem so hard  
Cause this one is never gonna mend  
Girl, I know I'll never love again  
Won't be another one for me  
I know that this is gonna be  
My last broken heart

My last broken heart  
Wasn't bad as I thought  
It might've been cracked but when I look back  
Now it don't seem so hard  
Cause this one is never gonna mend  
Girl, I know I'll never love again  
Won't be another one for me  
For now this is gonna be  
My last broken heart
