

## Going Out West

Jesse Malin

There's a girl smoking cigarettes  
Looks like you, she looks like you  
There's a feeling that I can't forget  
Coming through  
Baby blue

Well they tore another building down  
It's nothing new  
This town is through

There's a feeling I get when I talk to you mama  
So we're going out west where the winds won't harm us now  
And the car is in the lane  
We'll never be the same

The stores are setting up for Halloween  
Back at school the kids are cool  
Painted ponies in this one horse town  
Are getting old  
I've been bought and sold

There's a feeling I get when I talk to you mama  
So we're going out west where the winter winds won't harm us  
There's a feeling I get when I walk with you baby  
So I hang around til the fall  
And I'll be there when you call
