

Happy Ever After

Jesse Malin

When the rain came down
In this northern town
It was a banner year
In the world of fear
I'd have thought I'd drop you a line

Since you're in love
Hope you're happy ever after
Since you're in love
And you'll get everything you ask for

And you comb your hair
And you're unaware
And your friends all say
That you're looking great
Those black and white movies apply

Since you're in love
Hope you're happy ever after
Since you're in love
And you'll get everything you ask for

I'm still sad all over you
I'm still sad all over you

Gonna sleep away all my sunny days
In another year, well, I won't be here
We stand on mountains
Hoping that you'll change your mind

Since you're in love
Hope you're happy ever after
Since you're in love
And you'll get everything you ask for

Since you're in love
Hope you're happy ever after
Since you're in love
The credits roll a little faster now
