Friends

Jesse Mccartney

Recaps the morning after
Wake up to the group chat
Don't know what happened
I remember rooftops at 3AM
Taking last call shots at the bitter end
It's always a disaster

I go away
No matter how long
Pick it up right where we left off
Highs and the lows
I'm never alone
They're always there when I get home

Thank God I got my friends
I don't even wanna know where I'd be without them
We could get lost on our way to the bar
Good times go wherever we are
Singin' thank God I got my friends
I got my friends

I got my friends

They say you are who you hang with
I guess that I'm awesome
Cause I don't know who I would be
What I'd do if I lost 'em

I go away
No matter how long
Pick it up right where we left off
Highs and the lows
I'm never alone
They're always there when I get home

Thank God I got my friends
I don't even wanna know where I'd be without them
We could get lost on our way to the bar
Good times go wherever we are
Singin' thank God I got my friends
I got my friends

I got my friends

I got my friends
