

# Highway

Jesse Mccartney

Girl you were made  
The best they come  
They don't make them any better  
No I haven't seen 'em  
Let's take the long way  
Going home  
Eyes stuck on you  
Like a television  
Man what a vision

Got me got me got me goin' cray  
Out in la  
Trying to keep up with your every turn  
Girl I love the way you switchin' lanes  
Just for me babe  
Staring at you following your curves

Just like a highway, highway  
Drive all your weight over me  
Keep movin' your body  
I love when you pick up the speed  
Highway, highway  
Drippin' all over the seats  
Keep movin' your body  
Keep movin' your body

Let's get away  
Just me and you  
Two keys to the elevatorpenthouse room  
We find the sheets  
You take my hand  
As if I needed navigation  
Tryin' to find that big ol'

Got me got me got me goin' cray  
Out in la  
Trying to keep up with your every turn  
Girl I love the way you switchin' lanes  
Just for me babe  
Staring at you following your curves

Just like a highway, highway  
Drive all your weight over me  
Keep movin' your body  
I love when you pick up the speed  
Highway, highway  
Drippin all over the seats  
Keep movin' your body  
Keep movin' your body

I just wanna stay here  
Girl you look amazing  
Sweat drip from my face  
Round two, now we racin  
Too fast I won't make it  
Always make me chase it

Just like a highway, highway  
Drive all your weight over me  
Keep movin' your body  
I love when you pick up the speed  
Highway, highway  
Drippin all over the seats  
Keep movin' your body  
Keep movin' your body
