

# Make It Special

Jesse McCartney

There's somethin special happenin here  
I feel it comin in the air  
There's somethin special happenin hereeeeeee  
I feel it comin in the air

Tonight we're living in the moment tonight  
A toast to the homies tonight  
The night keeps going the music keeps flowing  
And everybody's feelin alright

Cause we just living the life  
The feeling everyday  
It can't be stopped  
It won't be stopped  
We just can't stop it tonight

There's somethin special happenin here  
I feel it comin in the air  
There's somethin special happenin here  
I feel it comin in the air

We're the life of the party  
We don't stop, we go hard  
So everybody lift up and go ?  
And throw your hands up  
And make it special

Tonight, top of the world tonight  
Feeling number one tonight  
Big, big plans it's all in our hands  
And it can be whatever we like

Don't waste the minute tonight  
Cause ain't no limits tonight  
It can't be stopped  
It won't be stopped  
We just can't stop it tonight

There's somethin special happenin here  
I feel it comin in the air  
There's somethin special happenin here  
I feel it comin in the air

We're the life of the party  
We don't stop, we go hard  
So everybody lift up and go ?  
And throw your hands up  
And make it special...  
Tonight

We're the life of the party  
We don't stop, we go hard  
So everybody lift up and go  
And throw your hands up  
And make it special tonight

There's somethin special happenin here

I feel it comin in the air  
There's somethin special happenin' here  
I feel it comin in the air
