

# New Stage

Jesse Mccartney

Been there, done that  
Young kid with a family on his back  
Long road late nights  
Strange cities  
Red ropes. All smiles  
Playing shows where the crowds screaming my name  
How could I complain?  
But everything I thought I wanted  
It don't make me feel the same  
The little things I thought meant nothing  
Are suddenly the things I crave

So get me out of this club  
Where the music's too loud  
And the faces don't change  
I don't need to chase girls  
Cause I found the right one  
And I'm keepin her safe  
I'm in a whole new stage  
Standing on a whole new stage

Sweet talk, long hikes  
Slow drives through the canyon late at night  
Fresh air, no phone  
That's livin  
Call mom, call dad  
And talk about all the troubles that we had  
And that there's time for new beginnings  
I've got everything I wanted  
But it don't make me feel the same  
Cause all the things I thought meant nothing  
Are suddenly the things I crave

So get me out of this club  
Where the musics too loud  
And the faces don't change  
I don't need to chase girls  
Cause I found the right one  
And I'm keepin her safeI'm in a whole new stage  
Standing on a whole new stage

So get me out of this club  
Where the musics too loud  
And the faces don't change  
I don't need to chase girls  
Cause I found the right one  
And I'm keepin her safe  
I'm in a whole new stage  
So get me out of this club  
Where the musics too loud  
And the faces don't change  
I don't need to chase girls  
Cause I found the right one  
And I'm keepin her safe  
I'm in a whole new place  
Standing on a whole new stage  
Standing on a whole new stage
