

Selfless

Jesse McCartney

You give it all, I never really ask for much
You make me feel like I am the only one
The flow you touches, never get tired for me my love ohh
If there's a problem, you're the first to always fix it
When people talkin', you're the one who always visit
It's never okay, never okay in what you're missing ohh

You see what I'm trying to say is
That I don't push and hate you

You know to make my day
You make the world spinning in the whole on day
It is up to you, if you want me everyday
Girl your so selfless, selfless, selfless
If only we celebrate
Give anything I need I take it off on your hand
Cause you serve, deserve a chance on my way

Girl you're so selfless, selfless, selfless
You're so selfless, selfless, selfless
You're so selfless, selfless, selfless

You work so hard, what you get is what you worked
It's who you are, never get tired in every work
When things are rough your making the best for not to be worse
Your memes are all me, more than I could hear your words
When I get wrong, you make me right in every turn
You gave your heart, so baby I'm giving mine in return
You see what I'm trying to say is
And I'm just so thankful for you

You know to make my day
You make the world spinning in the whole on day
It is up to you, if you want me everyday
Girl your so selfless, selfless, selfless
If only we celebrate
Give anything I need I take it off on your hand
Cause you serve, deserve a chance on my way

Girl you're so selfless, selfless, selfless
You're so selfless, selfless, selfless

Hey baby, do you see yourself
Cause you're always tired now
Hey baby go and treat yourself
Cause you're always tired now
Hey baby, do you see yourself
Cause you're always tired now
Hey baby go and treat yourself
Cause you're always tired now

You know to make my day
You make the world spinning in the whole on day
It is up to you, if you want me everyday
Girl your so selfless, selfless, selfless
If only we celebrate
Give anything I need I take it off on your hand

Cause you serve, deserve a chance on my way

Girl you're so selfless, selfless, selfless

You're so selfless, selfless, selfless

You're so selfless, selfless, selfless
