

Up And Away

Jesse McCartney

You've seen the pictures
You know the stories
They tell you a prince is out there waiting for you
Well look no further
Girl here I am
I don't have a silver but I will be your man

I can be the frame around your heart
(No, nothing will break it)
And you don't have to wish upon a star
(Cause we already made it)

Up and away
Up, up, away
Up and away
Up, up, away
No such thing as gravity
When I've got you and you've got me and
Up and away
Up, up, away
Up and away
Up, up, away
Up and away
Up, up, away
Up and away
Up, up, up, up

Spinning round
Way up here
Baby I'm so lost in your
Maybe I'm dreaming (hey)
Is this for real? (Hey)
Or is this how your love supposed to feel

No one ever thought we'll get this far
(Never say never)
'Cause I will be the beat inside your heart
(Be there forever)

Up and away
Up, up, away
Up and away
Up, up, away
Say goodbye to gravity
When I've got you and you've got me and
Up and away
Up, up, away
Up and away
Up, up, away
Up and away
Up, up, away
Up and away
Up, up, up, up

No mistake that we made
Our world get so clear
I say we should stay

'Cause we're safer up here

No one ever thought we'll get this far this far

Never say never

'Cause I will be the beat inside your heart

Be there forever

Up and away (up)

Up, up, away

Up and away (and away)

Up, up, away (hey)

Up and away

Up, up, away (yeah, yeah)

Up and away

Up, up, away (up and away)

Up and away

Up, up, away (ouh)

Up and away

Up, up, away (ouh)

Up and away

Up, up, away

Up and away

Up, up, up, up

No such thing as gravity

When I've got you and you've got me
