

# Spend The Night (It's Alright)

Jesse Powell

Baby, it's OK  
Honey, it's alright  
You want to spend the night  
Oh, it's alright

Oh, so fine  
And you're being kinda shy  
Ooh, but that's alright  
Girl, I think I know  
What's on your mind, oh  
'Cause it's getting late  
And you're still here with me  
Don't be afraid  
To say what you really mean

Baby, it's OK  
Honey, it's alright  
You want to spend the night  
Oh, it's alright  
(2x)

Baby, I can see  
I can see that you're in need  
So, put your trust in me  
And you won't have to wait any longer  
I'll turn off the lights  
So you can get in the mood  
And when the time is right  
I'll give all of my love to you

Baby, it's OK  
Honey, it's alright  
You want to spend the night  
Oh, it's alright  
(2x)

If it's love that you desire  
I can keep you satisfied  
Then baby you can always come to me  
Yes, you can, sugar  
Give you what you want and more  
That's all that I've been waiting for  
And anytime you might want to  
Spend the night  
It's alright

Baby, it's OK  
Honey, it's alright  
You want to spend the night  
Oh, it's alright
